INTERNATIONAL JOURNAL OF

REMOTE SENSING

An official journal of the
Remote Sensing Society

VOLUME 26 2005

Taylor & Francis
Taylor & Francis Group

CONTENTS OF VOLUME 26

NUMBER 1

Cover. Satellite and ground-based observations of the typhoon which passed through south-east Korea on 12 September 2003
Y. S. Chung, H. S. Kim and K. H. Park 1

Editorial
Moving on to the next 25 years
A. P. Cracknell 7

AVHRR automated detection of volcanic clouds
A. Bonfiglio, M. Macchiato, N. Pergola, C. Pietrapertosa and V. Tramutoli 9

Experimental study of polarization characteristics of lidar signal in case of occlusion front
I. N. Kolev, B. I. Tatarov, P. B. Savov, T. T. Trifonov and B. K. Kaprielov 29

Estimating surface solar radiation over complex terrain using moderate-resolution satellite sensor data
K. Wang, X. Zhou, J. Liu and M. Sparrow 47

Determination of palaeotectonic and neotectonic features around the Menderes Massif and the Gediz Graben (western Turkey) using Landsat TM image
K. S. Kavak 59

Urban surface model generation from remotely sensed airborne image sequence data
G. Zhou, P. Song and P. Cheng 79

Land-cover binary change detection methods for use in the moist tropical region of the Amazon: a comparative study
D. Lu, P. Mausel, M. Batistella and E. Moran 101

Repeatability of hyperspectral imaging systems—quantification and improvement
K. Peleg, G. L. Anderson and C. Yang 115

Merging of airborne elevation data and Radarsat data to develop a Digital Elevation Model
N. Baghdadi, S. Cavelier, J.-P. Chiles, B. Bourgine, Th. Toutin, C. King, P. Daniels, J. Perrin and C. Truffert 141

Lidar observation of a strongly nonlinear internal wave train in the Gulf of Alaska
J. H. Churnside and L. A. Ostrovsky 167

Book reviews 179

Remote Sensing Letters
Iterative self-consistent approach for Earth surface temperature determination
Y. Xue, G. Cai, Y. N. Guan, A. P. Cracknell and J. Tang 185

Mapping insect-induced tree defoliation and mortality using coarse spatial resolution satellite imagery
R. H. Fraser and R. Latifovic 193

Detection of mining related ground instabilities using the Permanent Scatterers technique—a case study in the east of France
C. Colesanti, S. Le Mouelic, M. Bennani, D. Raucoules, C. Carnec and A. Ferretti 201

Using PCA transformation to remove the tenuous cloudiness effect in multispectral satellite sensor images
S. García-López, J. Delgado, J. Cardenal and J. Caracuel 209

Random forest classifier for remote sensing classification
M. Pal 217

You know what land cover is but does anyone else?...an investigation into semantic and ontological confusion
A. Comber, P. Fisher and R. Wadsworth 223

NUMBER 2

Baltic Sea Remote Sensing and Bio-optical Modelling

Cover 229
Guest Editors' Preface
B. Håkansson and D. G. Bowers 231
Aerosol optical depth over the Baltic Sea derived from AERONET and SeaWiFS measurements
T. Carlund, B. Håkansson and P. Land 233
SeaWiFS ocean colour chlorophyll algorithms for the southern Baltic Sea
M. Darecki, S. Kaczmarek and J. Olszewski 247
The combined use of optical remote sensing data and unattended flow-through fluorometer measurements in the Baltic Sea
J. Vepsäläinen, T. Pyhälahti, E. Rantajärvi, K. Kallio, S. Pertola, T. Stipa, M. Kiirikki, J. Pulliainen and J. Seppälä 261
Derivation of dissolved organic carbon concentrations from SeaWiFS data
J. N. Schwarz 283
Industrial plume detection in hyperspectral remote sensing data
P. Philipson née Ammenberg, M. Liljeberg and T. Lindell 295
Ocean colour remote sensing relevant water constituents and optical properties of the Baltic Sea
H. Siegel, M. Gerth, T. Ohde and T. Heene 315
Spectral backscattering coefficient in coastal waters
E. Aas, J. Høkedal and K. Sørensen 331
Empirical relationships between coloured dissolved organic matter (CDOM) absorption and apparent optical properties in Baltic Sea waters
P. Kowalczuk, J. Olszewski, M. Darecki and S. Kaczmarek 345
Spectral optical and bio-optical relationships in the Oslo Fjord compared with similar results from the Baltic Sea
J. Høkedal, E. Aas and K. Sørensen 371
Spectral absorption and fluorescence characteristics of phytoplankton in different size fractions across a salinity gradient in the Baltic Sea
J. Seppälä, P. Ylöstalo and H. Kuosa 387
Point or pointless – quality of ground data
A. Lindfors, K. Rasmus and N. Strömbeck 415

NUMBER 3

Cover. Mapping forest degradation in the Amazon region with Ikonos images
C. M. Souza Jr and D. Roberts 425
Mapping individual tree location, height and species in broadleaved deciduous forest using airborne LIDAR and multi-spectral remotely sensed data
S. Koukoulas and G. A. Blackburn 431

EO-1 Hyperion, ALI and Landsat 7 ETM+ data comparison for estimating forest crown closure and leaf area index
R. Pu, Q. Yu, P. Gong and G. S. Biging 457
Estimating and mapping pteridophyte and Melastomataceae species richness in western Amazonian rainforests
S. Rajaniemi, E. Tomppo, K. Ruokolainen and H. Tuomisto 475
Technical Note. Evaluating high spatial resolution imagery for detecting citrus orchards affected by sooty mould
R. S. Fletcher 495
A practical approach for estimating the red edge position of plant leaf reflectance
G. V. G. Baranoski and J. G. Rokne 503
Capabilities of multispectral thermal data for identification of *Anopheles gambiae* mosquito larval habitats in African urban environments
B. G. Jacob, J. L. Regens, C. M. Mbogo, A. K. Githeko, C. M. Swalm, J. I. Githure and J. C. Beier 523
Technical Note. Use of ordinal conversion for radiometric normalization and change detection
T. Nelson, H. G. Wilson, B. Boots and M. A. Wulder 535
Comparison of function- and structure-based schemes for classification of remotely sensed data
B. Prenzel and P. Treitz 543
Using logit models to classify land cover and land-cover change from Landsat Thematic Mapper
K. C. Seto and R. K. Kaufmann 563
Satellite image classification using genetically guided fuzzy clustering with spatial information
S. Bandyopadhyay 579
Comparison between Mallat's and the 'à trous' discrete wavelet transform based algorithms for the fusion of multispectral and panchromatic images
M. González-Audícana, X. Otazu, O. Fors and A. Seco 595
Multifractal characterization of the spatial distribution of ulexite in a Bolivian salt flat
A. N. D. Posadas, R. Quiroz, P. E. Zorogastúa and C. León-Velarde 615

Remote Sensing Letters
Monitoring East Asian migratory locust plagues using remote sensing data and field investigations
J. Ma, X. Han, Hasibagan, C. Wang, Y. Zhang, J. Tang, Z. Xie and T. Deveson 629
Mapping forest successional stages following deforestation in Brazilian Amazonia using multi-temporal Landsat images
F. D. B. Espírito-Santo, Y. E. Shimabukuro and T. M. Kuplich 635
Changes in ocean properties associated with Hurricane Isabel
R. Gautam, R. P. Singh and M. Kafatos 643

NUMBER 4

Cover 651
Preface
D. Maktav and C. Jürgens 653
Remote sensing of urban areas
D. Maktav, F. S. Erbek and C. Jürgens 655
A global analysis of urban reflectance
C. Small 661

A novel method for generating 3D city models from high resolution and multi-sensor remote sensing data
J. Schiewe and M. Ehlers 683
Measuring temporal compositions of urban morphology through spectral mixture analysis: toward a soft approach to change analysis in crowded cities
T. Rashed, J. R. Weeks, D. Stow and D. Fugate 699
Assessment of the rectification accuracy of IKONOS imagery based on two-dimensional models
A. Shaker, W. Shi and H. Barakat 719
The utility of texture analysis to improve per-pixel classification for high to very high spatial resolution imagery
A. Puissant, J. Hirsch and C. Weber 733
Comparing feature extraction techniques for urban land-use classification
C. Özkan and F. S. Erbek 747
GIS and remote sensing as tools for the simulation of urban land-use change
C. M. de Almeida, A. M. Vieira Monteiro, G. Câmara, B. Silveira Soares-Filho, G. Coutinho Cerqueira, C. Lopes Pennachin and M. Batty 759
The use of satellite image maps for urban planning in Turkey
F. S. Erbek, A. Ulubay, D. Maktav and E. Yağiz 775
Urban development in the Athens metropolitan area using remote sensing data with supervised analysis and GIS
C. Weber, C. Petropoulou and J. Hirsch 785
Analysis of urban growth using multi-temporal satellite data in Istanbul, Turkey
D. Maktav and F. S. Erbek 797
Hyperspectral image assessment of oil-contaminated wetland
F. Salem, M. Kafatos, T. El-Ghazawi, R. Gomez and R. Yang 811
Automatic detection of earthquake-damaged buildings using DEMs created from pre- and post-earthquake stereo aerial photographs
M. Turker and B. Cetinkaya 823

NUMBER 5

Cover. The Serra da Cangalha astrobleme as revealed by ASTER and SRTM orbital data
R. Almeida-Filho, F. R. S. Moreira and C. H. Beisl 833
Comparative performance of a modified change vector analysis in forest change detection
K. Nackaerts, K. Vaesen, B. Muys and P. Coppin 839
Inter-comparison of AVHRR-based fire susceptibility indicators for the Mediterranean ecosystems of southern Italy
R. Lasaponara 853
A land cover distribution composite image from coarse spatial resolution images using an unmixing method
T. M. Uenishi, K. Oki, K. Omasa and M. Tamura 871
A reliable and fast ribbon road detector using profile analysis and model-based verification
X. Hu and C. V. Tao 887
Urban vegetation monitoring in Hong Kong using high resolution multispectral images
J. Nichol and C. M. Lee 903
Characterizing the spectral reflectance of algae in lake waters with high suspended sediment concentrations
E. Sváb, A. N. Tyler , T. Preston, M. Présing and K. V. Balogh 919

Channel avulsions of the Sarda River system, Ganga Plain
D. Mitra, A. K. Tangri, and I. B. Singh 929
Low grazing angle radar imaging experiments over the South Falls sandbank
T. Lamont-Smith, A. M. Jackson, P. W. Shepherd and R. D. Hill 937
Minimum cross-entropy reconstruction for Synthetic Aperture Radar imagery
M. Grippa and I. H. Woodhouse 967
Remote sensing of chemical vapours by differential FTIR radiometry
J.-M. Thériault and E. Puckrin 981
Preliminary comparison of TRMM and ground-based precipitation radars for a European test site
M. Gabella, S. Michaelides and G. Perona 997

Remote Sensing Letters
Support vector machines for classification in remote sensing
M. Pal and P. M. Mather 1007
AVHRR multitemporal compositing techniques for burned land mapping
E. Chuvieco, G. Ventura and and M. P. Martín 1013
VIIRS narrowband to broadband land surface albedo conversion: formula and validation
S. Liang, Y. Yu and T. P. Defelice 1019
The 26 December 2003, Bam, Iran earthquake: surface displacement from Envisat ASAR interferometry
S. Stramondo, M. Moro, F. Doumaz and F. R. Cinti 1027
Use of Normalized Difference Water Index for monitoring live fuel moisture
P. E. Dennison, D. A. Roberts, S. H. Peterson and J. Rechel 1035
Prioritizing ocean colour channels by neural network input reflectance perturbation
S. Dransfeld, A. R. Tatnall, I. S. Robinson and C. D. Mobley 1043
A near-real time automatic MODIS data processing system
J. D. Shutler, T. J. Smyth, P. E. Land and S. B. Groom 1049
Remote detection of invasive Melaleuca trees (*Melaleuca quinquenervia*) in South Florida with multispectral IKONOS imagery
D. O. Fuller 1057

NUMBER 6

Cover. NOAA-AVHRR detects thermal anomaly associated with the 26 January 2001 Bhuj earthquake, Gujarat, India
A. K. Saraf and S. Choudhury 1065
Remote sensing image thresholding methods for determining landslide activity
P. L. Rosin and J. Hervás 1075
Estimating tropical pasture quality at canopy level using band depth analysis with continuum removal in the visible domain
O. Mutanga, A. K. Skidmore, L. Kumar and J. Ferwerda 1093
Connection between fire and land cover change in Southeast Asia: a remote sensing case study in Riau, Sumatra
J. Miettinen and S. C. Liew 1109
MODIS land surface temperature composite data and their relationships with climatic water budget factors in the central Great Plains
S. Park, J. J. Feddema and S. L. Egbert 1127
A level set method for oil slick segmentation in SAR images
B. Huang, H. Li and X. Huang 1145

Automatic detection of oil spills from SAR images
F. Nirchio, M. Sorgente, A. Giancaspro, W. Biamino, E. Parisato, R. Ravera and P. Trivero 1157
Development and application of a neural network based ocean colour algorithm in coastal waters
B. Dzwonkowski and X.-H. Yan 1175
Hyperspherical direction cosine change vector analysis
T. Warner 1201
Local characterization of thematic classification accuracy through spatially constrained confusion matrices
G. M. Foody 1217
A per-field classification method based on mixture distribution models and an application to Landsat Thematic Mapper data
H. Erol and F. Akdeniz 1229
Detection of Maya's archaeological sites using high resolution radar images
J. Lira, P. López and A. Rodriguez 1245
Book review 1261

Remote Sensing Letters
Fusion of multispectral and panchromatic satellite sensor imagery based on tailored filtering in the Fourier domain
M. Lillo-Saavedra, C. Gonzalo, A. Arquero and E. Martinez 1263
Spatial and temporal patterns of surface soil moisture over India estimated using surface wetness index from SSM/I microwave radiometer
R. P. Singh, S. R. Oza, K. N. Chaudhari and V. K. Dadhwal 1269
Assessment of the MODIS Leaf Area Index Product (MOD15) in Alaska
D. L. Verbyla 1277

NUMBER 7

Cover. Land-use/land-cover change analysis in part of Ethiopia using Landsat Thematic Mapper data
R. S. Dwivedi, K. Sreenivas and K. V. Ramana 1285
Model and context-driven building extraction in dense urban aerial images
J. Peng and Y. C. Liu 1289
Updating land cover classification using a rule-based decision system
D. Raclot, F. Colin and C. Puech 1309
SPOT-4 VEGETATION multi-temporal compositing for land cover change studies over tropical regions
J. M. B. Carreiras and J. M. C. Pereira 1323
Land cover update by supervised classification of segmented ASTER images
A. R. S. Marçal, J. S. Borges, J. A. Gomes and J. F. Pinto Da Costa 1347
Application of L-band differential SAR interferometry to subsidence rate estimation in reclaimed coastal land
S.-W. Kim, C.-W. Lee, K.-Y. Song, K. D. Min and J.-S. Won 1363
Radar spatial considerations for land cover extraction
N. D. Herold, B. N. Haack and E. Solomon 1383
Usefulness and limits of MODIS GPP for estimating wheat yield
M. C. Reeves, M. Zhao and S. W. Running 1403

Monitoring of forage conditions with MODIS imagery in the Xilingol steppe, Inner Mongolia
K. Kawamura, T. Akiyama, H. Yokota, M. Tsutsumi, T. Yasuda, O. Watanabe, G. Wang and S. Wang 1423

Measuring forest structure with terrestrial laser scanning
P. J. Watt and D. N. M. Donoghue 1437

Technical Note. Inter-annual analysis of deforestation hotspots in Madagascar from high temporal resolution satellite observations
J. C. Ingram and T. P. Dawson 1447

Significance of lineament patterns in rock unit classification and designation: a pilot study on the Gharib-Dara area, northern Eastern Desert, Egypt
M. E. Mostafa and A. Z. Bishta 1463

Application of logistic regression model and its validation for landslide susceptibility mapping using GIS and remote sensing data
S. Lee 1477

Remote Sensing Letters

A spectral unmixing approach for mapping burned areas in Mediterranean countries
C. Quintano, Y. E. Shimabukuro, A. Fernández and J. A. Delgado 1493

Pattern recognition of marine provinces
K.-H. Szekielda 1499

Classification of soil- and bedrock-dominated landslides in British Columbia using segmentation of satellite imagery and DEM data
Y. E. Martin and S. E. Franklin 1505

An efficient regression strategy for extracting forest biomass information from satellite sensor data
M. M. Rahman, E. Csaplovics and B. Koch 1511

NUMBER 8

Cover. Development of a new image correction technique to remove false topographic perception phenomena
A. K. Saraf, P. Ghosh, B. Sarma and S. Choudhury 1523

A shadow detection and extraction algorithm using digital elevation models and x-band weather radar measurements
S. D. Young, S. Kakarlapudi and M. Uijt de Haag 1531

A statistical framework for the analysis of long image time series
K. M. de Beurs and G. M. Henebry 1551

A comparison of local variance, fractal dimension, and Moran's *I* as aids to multispectral image classification
C. W. Emerson, N. Siu-Ngan Lam and D. A. Quattrochi 1575

A whole image approach using field measurements for transforming EO1 Hyperion hyperspectral data into canopy reflectance spectra
E. Ramsey III and G. Nelson 1589

Generation and validation of characteristic spectra from EO1 Hyperion image data for detecting the occurrence of the invasive species, Chinese tallow
E. Ramsey III, A. Rangoonwala, G. Nelson, R. Ehrlich and K. Martella 1611

Mapping the invasive species, Chinese tallow, with EO1 satellite Hyperion hyperspectral image data and relating tallow occurrences to a classified Landsat Thematic Mapper land cover map
E. Ramsey III, A. Rangoonwala, G. Nelson and R. Ehrlich 1637

Improving continuity of MODIS terrestrial photosynthesis products using an interpolation scheme for cloudy pixels
S. Kang, S. W. Running, M. Zhao, J. S. Kimball and J. Glassy 1659

Application of an automated cloud-tracking algorithm on satellite imagery for tracking and monitoring small mesoscale convective cloud systems
H. Feidas and C. Cartalis 1677
Rapid response for cloud monitoring through Meteosat VIS-IR and NOAA–A/TOVS image fusion: civil aviation application. A first approach to MSG-SEVIRI
C. Casanova, A. Romo, E. Hernández, J. L. Casanova and J. Sanz 1699
On some aspects of precipitation over the tropical Indian Ocean using satellite data
M. R. Ramesh Kumar and O. P. Sreejith 1717
A combined passive–active microwave retrieval of quantitative rainfall from Topex/Poseidon radar altimeter and Topex microwave radiometer
R. M. Gairola, S. Pokhrel, A. K. Varma and V. K. Agarwal 1729

Remote Sensing Letters
Estimation of daily evapotranspiration using a two-layer remote sensing model
Chen Yunhao, Li Xiaobing, Li Jing, Shi Peijun and Dou Wen 1755
Use of reflectance band ratios to estimate suspended and dissolved matter concentrations in estuarine waters
D. Doxaran, R. C. N. Cherukuru and S. J. Lavender 1763
Relationship between AVHRR surface temperature and NDVI in Arctic tundra ecosystems
A. Hope, R. Engstrom and D. Stow 1771

NUMBER 9

Cover. Remote sensing of *Trichodesmium* blooms in the coastal waters off Gujarat, India using IRS-P4 OCM
R. K. Sarangi, P. Chauhan, S. R. Nayak and U. Shreedhar 1777
MERIS: the re-branding of an ocean sensor
P. J. Curran and C. M. Steele 1781
Regional optimization of an atmospheric correction algorithm for the retrieval of sea surface temperature from the Canary Islands–Azores–Gibraltar area using NOAA/AVHRR data
F. Eugenio, J. Marcello, A. Hernández-Guerra and E. Rovaris 1799
Mapping and visualizing the Great Salt Lake landscape dynamics using multi-temporal satellite images, 1972–1996
M.-C. Hung and Y.-H. Wu 1815
Estimation of surface chlorophyll-*a* on an emersed mudflat using field spectrometry: accuracy of ratios and derivative-based approaches
R. J. Murphy, T. J. Tolhurst, M. G. Chapman and A. J. Underwood 1835
Radial basis function neural networks classification using very high spatial resolution satellite imagery: an application to the habitat area of Lake Kerkini (Greece)
I. Keramitsoglou, H. Sarimveis, C. T. Kiranoudis and N. Sifakis 1861
Using Landsat TM and field data to produce maps of predicted bird densities in Latvian farmland
E. Prins, B. S. Petersen, A. Aunins and J. Priednieks 1881
Spatial accuracy of orthorectified IKONOS imagery and historical aerial photographs across five sites in China
H. Wang and E. C. Ellis 1893
Satellite remote sensing for detailed landslide inventories using change detection and image fusion
J. Nichol and M. S. Wong 1913

Detection of traces of pyroclastic flows and lahars with satellite synthetic aperture radars
T. Terunuma, K. Nishida, T. Amada, T. Mizuyama, I. Sato and M. Urai 1927
Accuracy assessment of automatically derived digital elevation models from aster data in mountainous terrain
S. Eckert, T. Kellenberger and K. Itten 1943
GLC2000: a new approach to global land cover mapping from Earth observation data
E. Bartholomé and A. S. Belward 1959
A quantitative comparison of methods for classifying burned areas with LISS-III imagery
R. M. Román-Cuesta, J. Retana, M. Gracia and R. Rodríguez 1979

Remote Sensing Letters
Detection of intense plankton blooms using the 709 nm band of the MERIS imaging spectrometer
J. Gower, S. King, G. Borstad and L. Brown 2005
The state of vegetation in Europe following the 2003 drought
N. Gobron, B. Pinty, F. Mélin, M. Taberner, M. M. Verstraete, A. Belward, T. Lavergne and J.-L. Widlowski 2013
Implicit reconstruction of patch dynamics from single-date aerial photographs: mutuality and complementarity in pattern change
E. Kelman and M. Shoshany 2021

NUMBER 10

Cover. Application of remotely sensed closely coupled biological and physical processes for marine fishery resources exploration
H. U. Solanki, R. M. Dwivedi, S. R. Nayak, S. K. Naik, M. E. John and V. S. Somvanshi 2029
Inter-annual variability of chlorophyll and sea-ice in the Antarctic Divergence region: an attempt to derive their quantitative relationship
T. Hirawake, S. Kudoh, S. Aoki, T. Odate and M. Fukuchi 2035
Evaluation of SeaWiFS chlorophyll-a in the Black and Mediterranean Seas
S. Sancak, S. T. Besiktepe, A. Yilmaz, M. Lee and R. Frouin 2045
The effect of tidal currents on radar backscatter from the sea around Portland Bill
T. Lamont-Smith and P. R. Dovey 2061
Passive microwave signature observations of the Baltic Sea ice
M. Mäkynen and M. Hallikainen 2081

Technical Note
Simple and robust removal of sun glint for mapping shallow-water benthos
J. D. Hedley, A. R. Harborne and P. J. Mumby 2107
Combining spectral and spatial information into hidden Markov models for unsupervised image classification
B. Tso and R. C. Olsen 2113
A new tool for variable multiple endmember spectral mixture analysis (VMESMA)
F. J. García-Haro, S. Sommer and T. Kemper 2135
A multidisciplinary user acceptability study of hyperspectral data compressed using an on-board near lossless vector quantization algorithm
S.-E. Qian, A. Hollinger, M. Bergeron, I. Cunningham, C. Nadeau, G. Jolly and H. Zwick 2163
Neural network model for standard PCA and its variants applied to remote sensing
S. Chitroub 2197

Designing fuzzy rule based classifier using self-organizing feature map for analysis of multispectral satellite images
N. R. Pal, A. Laha and J. Das 2219

Remote Sensing Letters
Spatial and temporal variability of soil moisture over India using IRS P4 MSMR data
R. P. Singh, D. R. Mishra, A. K. Sahoo and S. Dey 2241

NUMBER 11

Cover. Multitemporal fraction images derived from Terra MODIS data for analysing land cover change over the Amazon region
L. O. Anderson, Y. E. Shimabukuro and E. Arai 2251
Investigating landscape pattern and its dynamics in Daqing, China
J. Tang, L. Wang and S. Zhang 2259
Understanding precipitation patterns and land use interaction in Tibet using harmonic analysis of SPOT VGT-S10 NDVI time series
W. W. Immerzeel, R. A. Quiroz and S. M. de Jong 2281
A study of the endangered plants of the West Ordos Plateau, China using remote sensing data
J. Ma, X. Han and S. Qin 2297
Land use/land cover changes in the coastal zone of Ban Don Bay, Thailand using Landsat 5 TM data
W. Muttitanon and N. K. Tripathi 2311
Modelling corn production in China using AVHRR-based vegetation health indices
F. Kogan, B. Yang, W. Guo, Z. Pei and X. Jiao 2325
Factors affecting the grain yield predicting attributes of spectral reflectance indices in durum wheat: growing conditions, genotype variability and date of measurement
J. Bort, J. Casadesus, M. M. Nachit and J. L. Araus 2337
Remote sensing and GIS for estimation of irrigation crop water demand
I. A. El-Magd and T. Tanton 2359
Geographical distribution of global greening trends and their climatic correlates: 1982–1998
J. Xiao and A. Moody 2371
Biotic controls over spectral reflectance of arctic tundra vegetation
S. M. Riedel, H. E. Epstein and D. A. Walker 2391
Estimating above-ground burned biomass and CO_2 emissions for tropical Africa for the year 1990 with the NOAA–NASA Pathfinder AVHRR 8 km land dataset
J. A. Moreno Ruiz, J. Barón Martínez and M. Cantón Garbín 2407
Creating a forest fire database for the Far East of Asia using NOAA/AVHRR observation
J. Kučera, Y. Yasuoka and D. G. Dye 2423
A two-step method for estimating the extent of burnt areas with the use of coarse-resolution data
A. T. Vafeidis and N. A. Drake 2441

Remote Sensing Letters
Assessing the impacts of the 2003 hot and dry spell with SPOT HRVIR images time series over south-western France
L. Coret, Ph. Maisongrande, A. Boone, A. Lobo, G. Dedieu and P. Gouaux 2461
Comparison of SeaWiFS, MODIS-Terra and MODIS-Aqua in the Southern Ocean
R. Barbini, F. Colao, R. Fantoni, L. Fiorani, I. G. Okladnikov and A. Palucci 2471
A comparison of the wind magnitudes obtained from the microwave radiometer onboard IRS-P4 satellite and the ERS-2 scatterometer
F. Patadia, R. Sharma and M. M. Ali 2479

NUMBER 12

Cover. Monitoring of invasive *Tamarix* distribution and effects of biological control with airborne hyperspectral remote sensing
G. L. Anderson, R. I. Carruthers, S. Ge and P. Gong 2487

Estimating cover of an invasive grass (*Bromus tectorum*) using tobit regression and phenology derived from two dates of Landsat ETM+ data
E. B. Peterson 2491

Aboveground biomass estimation using Landsat TM data in the Brazilian Amazon
D. Lu 2509

Discrimination of irrigated and rainfed rice in a tropical agricultural system using SPOT VEGETATION NDVI and rainfall data
D. Kamthonkiat, K. Honda, H. Turral, N. K. Tripathi and V. Wuwongse 2527

Comparison between vegetation change analysis in Kenya based on AVHRR and SeaWiFS images
G. Laneve and M. M. Castronuovo 2549

Evaluation of MODIS and NOAA AVHRR vegetation indices with *in situ* measurements in a semi-arid environment
R. Fensholt and I. Sandholt 2561

Deriving cropping system performance indices using remote sensing data and GIS
S. Panigrahy, K. R. Manjunath and S. S. Ray 2595

Characterizing the spatial structure of endangered species habitat using geostatistical analysis of IKONOS imagery
C. S. A. Wallace and S. E. Marsh 2607

Review Article. Thirty years of analysing and modelling avian habitat relationships using satellite imagery data: a review
T. K. Gottschalk, F. Huettmann and M. Ehlers 2631

Remote sensing characterization of benthic habitats and submerged vegetation biomass in Los Roques Archipelago National Park, Venezuela
D. Schweizer, R. A. Armstrong and J. Posada 2657

An advanced algorithm for operational retrieval of water quality from satellite data in the visible
D. Pozdnyakov, A. Korosov, H. Grassl and L. Pettersson 2669

Technical Note. Pseudo natural colour aerial imagery for urban and suburban mapping
T. Knudsen 2689

Remote Sensing Letter
Accuracy assessment of the vegetation continuous field tree cover product using 3954 ground plots in the south-western USA
M. A. White, J. D. Shaw and R. D. Ramsey 2699

NUMBER 13

Cover. Satellite detects surface thermal anomalies associated with the Algerian earthquakes of May 2003
A. K. Saraf and S. Choudhury 2705

InSAR time series analysis of the 9 July 1998 Azores earthquake
C. Catita, K. L. Feigl, J. Catalão, J. M. Miranda and L. M. Victor 2715

Post-earthquake building collapse: a comparison of government statistics and estimates derived from SPOT HRVIR data
Ş. Kaya, P. J. Curran and G. Llewellyn 2731

Classifying depth-layered geological structures on Landsat TM images by gravity data: a case study of the western slope of Songliao Basin, northeast China
S. Chen and Y. Zhou 2741

A combined high and low spatial resolution approach for mapping snow covered areas in the Atlas mountains
A. Chaponnière, P. Maisongrande, B. Duchemin, L. Hanich, G. Boulet, R. Escadafal and S. Elouaddat 2755

Investigation of chlorophyll-a and total suspended matter concentrations using Landsat ETM and field spectral measurement in Taihu Lake, China
R. Ma and J. Dai 2779

Tropospheric aerosol observations in São Paulo, Brazil using a compact lidar system
E. Landulfo, A. Papayannis, A. Z. de Freitas, N. D. Vieira Jr, R. F. Souza, A. Gonçalves, A. D. A. Castanho, P. Artaxo, O. R. Sánchez-Ccoyllo, D. S. Moreira and M. P. M. P. Jorge 2797

Stray light modelling and analysis for the FY-2 meteorological satellite
Q. Guo, J.-M. Xu and W.-J. Zhang 2817

Analysis of land use/cover changes and urban expansion of Nairobi city using remote sensing and GIS
C. N. Mundia and M. Aniya 2831

Power spectrum analysis of SAR data for spatial forest characterization in Amazonia
T. Neeff, L. V. Dutra, J. R. Dos Santos, C. C. Freitas and L. S. Araujo 2851

InSAR image co-registration using the Fourier-Mellin transform
R. Abdelfattah and J. M. Nicolas 2865

Retrieval of elevation by radarclinometry in arid or semi-arid regions
S. Le Hégarat-Mascle, M. Zribi and L. Ribous 2877

Remote Sensing Letters
Relationships between tree growth and NDVI of grassland in the semi-arid grassland of north China
E. Y. Liang, X. M. Shao and J. C. He 2901

NUMBER 14

Uncertainties in Integrated Remote Sensing and GIS

Cover 2909

Preface. Uncertainties in integrated remote sensing and GIS
W. Z. Shi, M. Ehlers and M. Molenaar 2911

Multivariate texture-based segmentation of remotely sensed imagery for extraction of objects and their uncertainty
A. Lucieer, A. Stein and P. Fisher 2917

Complexity metrics to quantify semantic accuracy in segmented Landsat images
A. Stein and K. de Beurs 2937

Quality assessment for geo-spatial objects derived from remotely sensed data
Q. Zhan, M. Molenaar, K. Tempfli and W. Shi 2953

Landscape structure assessment with image grey-values and object-based classification at three spatial resolutions
E. Ivits, B. Koch, T. Blaschke, M. Jochum and P. Adler 2975

Estimating and accommodating uncertainty through the soft classification of remote sensing data
M. A. Ibrahim, M. K. Arora and S. K. Ghosh 2995

Improving land cover change estimates by accounting for classification errors
P. A. J. van Oort 3009

Reasoning about changes of land covers with fuzzy settings
X. M. Tang, W. Kainz and Y. Fang 3025

Spatial knowledge databases as applied to the detection of changes in urban land use
T. Y. Chou, T. C. Lei, S. Wan and L. S. Yang 3047

Estimating the propagation error of DEM from higher-order interpolation algorithms
W. Z. Shi, Q. Q. Li and C. Q. Zhu 3069

Error propagation analysis of DEM-based drainage basin delineation
J. Oksanen and T. Sarjakoski 3085

Modelling uncertainties related to movements of objects through signatures
E. Beşdok and H. M. Palancioğlu 3103

NUMBER 15

Cover. 3121

Simultaneous MSMR and SSM/I observations and analysis of sea-ice characteristics over the Antarctic region
S. M. Bhandari, N. K. Vyas, M. Dash, A. Khanolkar, N. Sharma, N. Khare and P. C. Pandey 3123

De-shadowing of satellite/airborne imagery
R. Richter and A. Müller 3137

Spectral and radiometric requirements for the airborne thermal imaging spectrometer ARES
R. Richter, A. Müller, M. Habermeyer, S. Dech, K. Segl and H. Kaufmann 3149

Atmospheric water vapour content retrieval from visible and thermal data in the framework of the DAISEX campaigns
J. C. Jiménez-Muñoz and J. A. Sobrino 3163

A practical split-window algorithm for retrieving land-surface temperature from MODIS data
K. Mao, Z. Qin, J. Shi and P. Gong 3181

A model-based approach for geometrical correction of optical satellite images
R. B. Huseby, O. M. Halck and R. Solberg 3205

Using the variogram to explore imagery of two different spatial resolutions
M. A. Oliver, J. A. Shine and K. R. Slocum 3225

Multispectral image fusion for improved RGB representation based on perceptual attributes
V. Tsagaris and V. Anastassopoulos 3241

Sampling design and uncertainty based on spatial variability of spectral variables for mapping vegetation cover
G. Wang, G. Gertner and A. B. Anderson 3255

A multilayer feedforward neural network for automatic classification of eucalyptus forests in airborne video imagery
C. Prost, A. Zerger and P. Dare 3275

Determination of seasonal variations in solar energy utilization by the leaves of Washington navel orange trees (*Citrus sinensis* L. Osbeck)
M. Sari, N. K. Sonmez and A. Kurklu 3295

A method for statistical data fusion on a per-field basis
H. Erol 3309

Remote Sensing Letters
Land-cover mixing and spectral vegetation indices
X. Liu and M. Kafatos 3321

NUMBER 16

Special Issue. Atmospheric Ozone: The Ozone Hole in the Context of Global Change
C. A. Varotsos, K. Ya. Kondratyev, A. P. Cracknell

Cover 3329

Preface 3331

Power-law correlations in column ozone over Antarctica
Costas Varotsos 3333

Stratospheric minor gas distribution over the Antarctic Peninsula during the APE–GAIA campaign
G. Giovanelli, D. Bortoli, A. Petritoli, E. Castelli, I. Kostadinov, F. Ravegnani, G. Redaelli, C. M. Volk, U. Cortesi, G. Bianchini and B. Carli 3343

The September 2002 Antarctic vortex major warming as observed by visible spectroscopy and ozone soundings
M. Yela, C. Parrondo, M. Gil, S. Rodríguez, J. Araujo, H. Ochoa, G. Deferrari and S. Díaz 3361

Interannual variability of planetary waves in the ozone layer at 65° S
A. Grytsai, Z. Grytsai, A. Evtushevsky and G. Milinevsky 3377

The planetary waves in total ozone over Antarctica
M. N. Efstathiou 3389

Stratospheric nitrogen dioxide in the Antarctic
D. Bortoli, G. Giovanelli, F. Ravegnani, I. Kostadinov and A. Petritoli 3395

Comparative study of the total ozone column over Maitri, Antarctica during 1997, 2002 and 2003
Sachin D. Ghude, Ashok Kumar, S. L. Jain, B. C. Arya and M. M. Bajaj 3413

A case study of the low total ozone event over Europe on 14 February 2001
S. Chubachi, K. Miyagawa and Y. Makino 3423

Declining trend of total ozone column over the northern parts of India
A. Sahoo, S. Sarkar, R. P. Singh, M. Kafatos and M. E. Summers 3433

Eddy meridional ozone transport in Antarctica in August–October 1998 and 2002
P. N. Vargin 3441

Solar activity–ozone relationships in the vertical distribution of ozone
C. S. Zerefos, K. Tourpali and D. Balis 3449

An Examination of the laminae characteristics in ozone profiles in Eastern and South Eastern Europe
C. Kahya, D. Demirhan, S. Topcu and S. Incecik 3455

Influence of atmospheric circulation variations on the ozone layer
E. A. Jadin, K. Ya. Kondratyev, V. I. Bekoryukov and P. N. Vargin 3467

Total ozone variation in south eastern Europe
D. Demirhan, C. Kahya, S. Topcu and S. Incecik 3479

Observed association between air pollution and the biologically effective solar ultraviolet irradiance
M. N. Efstathiou, H. Feretis, C. Tzanis and J. Christodoulakis 3487

Total ozone as a possible predictor of extreme weather events
E. A. Jadin 3497

Peculiarities in the diurnal variations of surface ozone in the Pamir mountains
V. Grigorieva and V. Polischuk 3507

Observational study of surface ozone at New Delhi, India
S. L. Jain, B. C. Arya, Arun Kumar, Sachin D. Ghude and P. S. Kulkarni 3515

Temporal evolution of UV absorbing aerosol loading of the atmosphere
S. Koloutsou-Vakakis 3525

An attempt to reconstruct UV radiation data from total ozone and auxiliary datasets
Laura Manea and Constantin Rada 3533

Retrieval of the transmitted UV irradiance from reflected data observed
I. N. Melnikova 3539

Investigation of the erythemal ultraviolet trends in the greater Greece area: Implications to human health
P. Theodorakopoulos and K. Theodorakopoulou 3545

Ozone and solar UV-B radiation: monitoring of the vitamin D synthetic capacity of sunlight in Kiev and Antarctica
I. Gvozdovskyy, T. Orlova, E. Salkova, I. Terenetskaya and G. Milinevsky 3555

Comparison between the total ozone observations made by ground-based and satellite-borne instrumentation at Athens, Greece
E. Tsivola, J. Christodoulakis and E. Charami 3561

Aerosol Lidar and *in situ* ozone observations of the planetary boundary layer over Bulgaria during the solar eclipse of 11 August 1999
N. Kolev, B. Tatarov, V. Grigorieva, E. Donev, P. Simeonov, V. Umlensky, B. Kaprielov and I. Kolev 3567

Ground-based observations of ozone at Athens, Greece during the solar eclipse of 1999
C. Tzanis 3585

Analysis of TOMS-derived Lambert-equivalent reflectivities for the period 1996–2002
C. Cartalis and I. Keramitsoglou 3597

Tropopause and total ozone at mid-latitudes
A. Vlamakis 3605

Preliminary study of Grid computing for remotely sensed information
Yong Xue, Jianqin Wang, Yanguang Wang, Chaolin Wu and Yincui Hu 3613

Reconstruction and prediction of long-period variations of the ozonosphere using ozonometric and dendrochronological data
V. V. Zuev 3631

NUMBER 17

MODIS evidences the river run-off impact on the Kara Sea trophy
D. V. Pozdnyakov, A. A. Korosov, L. H. Pettersson and O. M. Johannesseni 3641

Using Landsat thermal imagery and GIS for identification of groundwater discharge into shallow groundwater-dominated lakes
E. N. Tcherepanov, V. A. Zlotnik and G. M. Henebry 3649

Atmospheric correction for inland waters-application to SeaWiFS
J. Vidot and R. Santer 3663

Using satellite imagery and LIDAR data to corroborate an adjudicated ordinary high water line
L. Genc, S. E. Smith and B. A. Dewitt 3683

Variability of chlorophyll concentration in the Arabian Sea and Bay of Bengal as observed from SeaWiFS data from 1997-2000 and its interrelationship with Sea Surface Temperature (SST) derived from NOAA AVHRR
N. Chaturvedi 3695

New spectral estimate for SAR imaging of the ocean
M. B. Kanevsky 3707

Intercalibration of NOAA and Meteosat window channel brightness temperatures
C. Barroso, I. F. Trigo, F. Olesen, C. Dacamara and M. P. Queluz 3717

The relationship between tibetan snow depth, ENSO, river discharge and the monsoons of Bangladesh
J. Shaman, M. Cane and A. Kaplan 3735

Model development and comparison to predict softwood and hardwood per cent cover using high and medium spatial resolution imagery
J. W. Metzler and S. A. Sader 3749

Mapping woodland species composition and structure using airborne spectral and LiDAR data
R. A. Hill and A. G. Thomson 3763

Estimation of Mediterranean forest attributes by the application of k-NN procedures to multitemporal Landsat ETM+ images
F. Maselli, G. Chirici, L. Bottai, P. Corona and M.Marchetti 3781

View angle effects on the discrimination of selected Amazonian land cover types from a principal-component analysis of MISR spectra
A. S. Xavier and L. S. Galvão 3797

Sequential masking classification of multi-temporal Landsat7 ETM+ images for field-based crop mapping in Karacabey, Turkey
M. Turker and M. Arikan 3813

The use of the Minnaert correction for land-cover classification in mountainous terrain
L. Blesius and F. Weirich 3831

Remote Sensing Letters

Asterionella blooms in the northwestern Bay of Bengal during 2004
S. K. Sasamal, R. C. Panigrahy and S. Misra 3853

Spectral variability and bidirectional reflectance behaviour of urban materials at a 20 cm spatial resolution in the visible and near-infrared wavelengths. A case study over Toulouse (France)
S. Lacherade, C. Miesch, X. Briottet and H. Le Men 3859

MODIS-derived visible atmospherically resistant index for monitoring chaparral moisture content
D. Stow, M. Niphadkar and J. Kaiser 3867

NUMBER 18

Technical Note and Cover. Digital elevation model (DEM) generation from NOAA–AVHRR night-time data and its comparison with USGS-DEM
A. K. Saraf, B. P. Mishra, S. Choudhury and P. Ghosh 3879

LIDAR density and linear interpolator effects on elevation estimates
E. S. Anderson, J. A. Thompson and R. E. Austin 3889

Derivation of terrain roughness indicators via granulometries
L. T. Tay, B. S. Daya Sagar and H. T. Chuah 3901

Integrated shadow removal based on photogrammetry and image analysis
Y. Li, P. Gong and T. Sasagawa 3911

Using Landsat 7 ETM+ imagery and Digital Terrain Models for mapping glacial lineaments on former ice sheet beds
Krister N. Jansson and Neil F. Glasser 3931

Mapping the richness and composition of British breeding birds from coarse spatial resolution satellite sensor imagery
G. M. Foody 3943

Monitoring insect migration with radar: the ventral-aspect polarization pattern and its potential for target identification
T. J. Dean and V. A. Drake 3957

Implementation of GOES-based land surface temperature diurnal cycle to AVHRR
D. Sun and R. T. Pinker 3975

In situ surface temperature retrieval in a boreal forest under variable cloudiness conditions
R. Niclòs, V. Caselles, C. Coll, E. Valor and J. M. Sánchez 3985

Analysis of the water volume, length, total area and inundated area of the Three Gorges Reservoir, China using the SRTM DEM data
Y. Wang, M. Liao, G. Sun and J. Gong 4001

Retrieval of marine water constituents from AVIRIS data in the Hudson/Raritan Estuary
S. Bagheri, S. Peters and T. Yu 4013

Evaluating the performance of the space-borne SAR sensor systems for oil spill detection and sea monitoring over the south-eastern Mediterranean Sea
C. C. Kontoes, O. Sykioti, D. Paronis and A. Harisi 4029

Assessment of dryland condition using spatial anomalies of vegetation index values
M. M. Boer and J. Puigdefábregas 4045

Plant spectral responses to gas leaks and other stresses
K. L. Smith, M. D. Steven and J. J. Colls 4067

Nitrogen detection with hyperspectral normalized ratio indices across multiple plant species
Jelle G. Ferwerda, Andrew K. Skidmore and Onisimo Mutanga 4083

Toward aerosol optical depth retrievals over land from GOES visible radiances: determining surface reflectance
K. R. Knapp, R. Frouin, S. Kondragunta and A. Prados 4097

Regional accuracy of QuikSCAT gridded winds
G. V. Mostovoy, P. J. Fitzpatrick and Y. Li 4117

NUMBER 19

Special Issue. SAFARI 2000 Southern African Regional Science Initiative
Jeffrey L. Privette and David P. Roy

Cover: Southern Africa, 2 February 2002 to 16 May 2002, Moderate Resolution Imaging Spectroradiometer (MODIS) 500 m land surface reflectance
E. F. Vermote and E. A. Satterfield 4137

Southern Africa as a remote sensing test bed: the SAFARI 2000 Special Issue overview
Jeffrey L. Privette and David P. Roy 4141

SeaWiFS identifies dust sources in the Namib Desert
F. D. Eckardt and N. Kuring 4159

Comparison of aerosol optical thickness measurements by MODIS, AERONET sun photometers, and Forest Service handheld sun photometers in southern Africa during the SAFARI 2000 campaign
W. M. Hao, D. E. Ward, R. A. Susott, R. E. Babbitt, B. L. Nordgren, Y. J. Kaufman, B. N. Holben and D. M. Giles 4169

Estimation of combustion completeness based on fire-induced spectral reflectance changes in a *dambo* grassland (Western Province, Zambia)
Ana C. L. Sá, José M. C. Pereira and João M. N. Silva 4185

Characterizing the surface heterogeneity of fire effects using multi-temporal reflective wavelength data
D. P. Roy and T. Landmann 4197

Using MODIS to evaluate heterogeneity of biomass burning in southern African savannahs: a case study in Etosha
S. Alleaume, C. Hély, J. Le Roux, S. Korontzi, R. J. Swap, H. H. Shugart and C. O. Justice 4219

Validation of the MODIS active fire product over Southern Africa with ASTER data
Jeffrey T. Morisette, Louis Giglio, Ivan Csiszar and Christopher O. Justice 4239

The Southern Africa Fire Network (SAFNet) regional burned-area product-validation protocol
D. P. Roy, P. G. H. Frost, C. O. Justice, T. Landmann, J. L. Le Roux, K. Gumbo, S. Makungwa, K. Dunham, R. Du Toit, K. Mhwandagara, A. Zacarias, B. Tacheba, O. P. Dube, J. M. C. Pereira, P. Mushove, J. T. Morisette, S. K. Santhana Vannan and D. Davies 4265

Use of remotely sensed data in the analysis of soil-vegetation changes along a drying gradient peripheral to the Okavango Delta, Botswana
Susan Ringrose, Andre Jellema, Philippa Huntsman-Mapila, Lauren Baker and Kristin Brubaker 4293

Results from the EO-1 experiment—A comparative study of Earth Observing-1 Advanced Land Imager (ALI) and Landsat ETM+ data for land cover mapping in the Okavango Delta, Botswana
Amy L. Neuenschwander, Melba M. Crawford and Susan Ringrose 4321

Ecoregion classification in the Okavango Delta, Botswana from multitemporal remote sensing
J. McCarthy, T. Gumbricht and T. S. McCarthy 4339

Estimation of tree cover using MODIS data at global, continental and regional/local scales
Matthew C. Hansen, John R. G. Townshend, Ruth S. DeFries and Mark Carroll 4359

Time-series validation of MODIS land biophysical products in a Kalahari woodland, Africa
K. F. Huemmrich, J. L. Privette, M. Mukelabai, R. B. Myneni and Y. Knyazikhin 4381

NUMBER 20

Cover. Observing estuarine currents and fronts in the Tay Estuary, Scotland, using an airborne SAR with along-track interferometry (ATI)
G. Ferrier, J. T. Macklin, S. P. Neill, A. M. Folkard, G. J. M. Copeland and J. M. Anderson 4399

Using digital cameras for river plume and water quality measurements
M. White, Lisa Feighery, D. Bowers, G. O'Riain and P. Bowyer 4405

Scaling of coastal phytoplankton features by optical remote sensors: comparison with a regional ecosystem model
J.-N. Druon, S. Loyer and F. Gohin 4421

Use of remote sensing and ANN in assessment of erosion activities in Majuli, the world's largest river island
R. N. Sankhua, N. Sharma, P. K. Garg and A. D. Pandey 4445

Upper Paraguay River inundation prediction using rainfall and NDVI
W. T. Liu and F. M. Ayres 4455

Investigating the relationship between ground-measured LAI and vegetation indices in an alpine meadow, north-west China
L. Lu, X. Li, C. L. Huang, M. G. Ma, T. Che, J. Bogaert, F. Veroustraete, Q. H. Dong and R. Ceulemans 4471

An extended AVHRR 8-km NDVI dataset compatible with MODIS and SPOT vegetation NDVI data
Compton J. Tucker, Jorge E. Pinzon, Molly E. Brown, Daniel A. Slayback, Edwin W. Pak, Robert Mahoney, Eric F. Vermote and Nazmi El Saleous 4485

Differentiation of rangeland vegetation and assessment of its status: field investigations and MODIS and SPOT VEGETATION data analyses
R. Geerken, N. Batikha, D. Celis and E. Depauw 4499

Estimate of net primary productivity of aquatic vegetation of the Amazon floodplain using Radarsat and JERS-1
M. Costa 4527

Changing patterns of global-scale vegetation photosynthesis, 1982–1999
S. S. Young and R. Harris 4537

Mineral climate indicators in paleoflooded and emerged areas around lake marshes (Tablas de Daimiel, Spain) using hyperspectral DAIS 7915 spectrometer data
A. Riaza, E. Garcia Melendez, M. Suarez and A. Müller 4565

Recognition of gypsum geohorizons in the Sivas Basin (Turkey) using ASTER and Landsat ETM+ images
K. S. Kavak 4583

Uncertainties in radiative transfer computations: consequences on the MERIS products over land
R. Santer, F. Zagolski, D. Ramon, J. Fischer and P. Dubuisson 4597

Erratum. Simulating Landsat ETM+ imagery using DAIS 7915 hyperspectral scanner data
T. Kavzoglu 4627

Erratum. Cover
S.M.Bhandari 4629

NUMBER 21

Cover. The calving event of the Drygalski Ice Tongue of February 2005
F. Parmiggiani and C. Fragiacomo 4633

Wavelet-transform based edge detection approach to derivation of snowmelt onset, end and duration from satellite passive microwave measurements
Hongxing Liu, Lei Wang and Kenneth C. Jezek 4639

Snow cover monitoring in Alpine regions using ENVISAT optical data
M. Pepe, P. A. Brivio, A. Rampini, F. Rota Nodari and M. Boschetti 4661

Enhancement of the consistency of MODIS thin cirrus with cloud phase by adding 1.6 μm reflectance
Y.-S. Choi, C.-H. Ho, M.-H. Ahn and Y.-S. Kim 4669

Automated cloud detection and classification of data collected by the Visible Infrared Imager Radiometer Suite (VIIRS)
K. D. Hutchison, J. K. Roskovensky, J. M. Jackson, A. K. Heidinger, T. J. Kopp, M. J. Pavolonis and R. Frey 4681

MSG/SEVIRI cloud mask and type from SAFNWC
M. Derrien and H. Le Gléau 4707

Cloud frequency with respect to remote sensing applications: example of Bavaria, southern Germany
F. Wagner and J. Reuder 4733

Impact of convection over the equatorial trough on summer monsoon activity over India
M. R. Ramesh Kumar, S. S. C. Shenoi and J. Schulz 4747

Statistical estimate of the hourly near-surface air humidity in eastern Canada in merging NOAA/AVHRR and GOES/IMAGER observations
K.-S. Han, A. A. Viau, Y.-S. Kim and J.-L. Roujean 4763

A method for classification accuracy evaluation for a precipitation-oriented classifier
A. I. Anthis and A. P. Cracknell 4785

Evaluation of novel thermally enhanced spectral indices for mapping fire perimeters and comparisons with fire atlas data
Z. A. Holden, A. M. S. Smith, P. Morgan, M. G. Rollins and P. E. Gessler 4801

Integrating high resolution remote sensing, GIS and fuzzy set theory for identifying susceptibility areas of forest insect infestations
C. Bone, S. Dragicevic and A. Roberts 4809

Relating SAR image texture to the biomass of regenerating tropical forests
T. M. Kuplich, P. J. Curran and P. M. Atkinson 4829

Technical Note. Estimation of Leaf Area Index in dry deciduous forests from IRS-WiFS in central India
M. Kale, S. Singh and P. S. Roy 4855

Remote Sensing Letters
An *in situ* study of the effects of surface anisotropy on the remote sensing of burned savannah
S. N. Trigg, D. P. Roy and S. P. Flasse 4869

NUMBER 22

Cover. State of the coastal water along the Nile Delta front, Egypt, as revealed by satellite imagery
W. M. Moufaddal 4877

Sub-pixel estimation of urban land cover components with linear mixture model analysis and Landsat Thematic Mapper imagery
S. Lee and R. G. Lathrop, Jr 4885

Urban road extraction from high-resolution optical satellite images
Hui Long and Zhongming Zhao 4907

Quantitative classification as a tool to show change in an urbanizing watershed
W. B. Clapham, Jr 4923

An evaluation of sampling strategies to improve precision of estimates of gross change in land use and land cover
S. V. Stehman, T. L. Sohl and T. R. Loveland 4941

Spectral mixture analysis of agricultural crops: endmember validation and biophysical estimation in potato plots
D. R. Peddle and A. M. Smith 4959

A competitive pixel-object approach for land cover classification
M. Song, D. L. Civco and J. D. Hurd 4981

Land cover classification from MODIS EVI times-series data using SOM neural network
Hasi Bagan, Qinxue Wang, Masataka Watanabe, Yonghui Yang and Jianwen Ma 4999

Digital elevation model (DEM) generation and accuracy assessment from ASTER stereo data
B. T. San and M. L. Süzen 5013

Deriving terrain and textural information from stereo RADARSAT data for mountainous land cover mapping
Xulong Peng, Jinfei Wang and Qiaofeng Zhang 5029

A rule-based method for mapping Canada's wetlands using optical, radar and DEM data
Junhua Li and Wenjun Chen 5051

Hyperspectral parameter estimation of elliptically contoured t mixture models using expectation-maximisation
M. D. Farrell JR. and R. M. Mersereau 5071

Interpreting image-based methods for estimating the signal-to-noise ratio
P. M. Atkinson, I. M. Sargent, G. M. Foody and J. Williams 5099

A technique for automatic concealment of confidential targets in fine spatial resolution imagery
K. E. Kim 5117

Broadband solar radiances from visible band measurements: a method based on ScaRaB observations and model simulations
Jian Feng and H. G. Leighton 5125

An efficient texture image segmentation algorithm based on the GMRF model for classification of remotely sensed imagery
Y. Li and P. Gong 5149

NUMBER 23

Special Issue. Remote Sensing and GIS for Estuarine Ecosystem Analysis
Xiaojun Yang

Cover: Use of LIDAR elevation data to construct a high-resolution digital terrain model for an estuarine marsh area
Xiaojun Yang 5163

Preface
Xiaojun Yang 5167

Mapping marshland vegetation of San Francisco Bay, California, using hyperspectral data
P. H. Rosso, S. L. Ustin and A. Hastings 5169

Application of multiple endmember spectral mixture analysis (MESMA) to AVIRIS imagery for coastal salt marsh mapping: a case study in China Camp, CA, USA
L. Li, S. L. Ustin and M. Lay 5193

Hyperspectral remote sensing of marsh species and plant vigour gradient in the New Jersey Meadowlands
F. J. Artigas and J. S. Yang 5209

Integrating LIDAR elevation data, multi-spectral imagery and neural network modelling for marsh characterization
James T. Morris, Dwayne Porter, Matt Neet, Peter A. Noble, Laura Schmidt, Lewis A. Lapine and John R. Jensen 5221

Estimating chlorophyll-*a* concentration using first-derivative spectra in coastal water
Luoheng Han 5235

Estimating and mapping chlorophyll-*a* concentration in Pensacola Bay, Florida using Landsat ETM+ data
Luoheng Han and Karen J. Jordan 5245

Mapping submergent aquatic vegetation in the US Great Lakes using Quickbird satellite data
Peter T. Wolter, Carol A. Johnston and Gerald J. Niemi 5255

Using satellite imagery and GIS for land-use and land-cover change mapping in an estuarine watershed
Xiaojun Yang and Zhi Liu 5275

Quantifying landscape pattern and its change in an estuarine watershed using satellite imagery and landscape metrics
Xiaojun Yang and Zhi Liu 5297

Use of GIS and remotely sensed data for *a priori* identification of reference areas for Great Lakes coastal ecosystems
G. E. Host, J. Schuldt, J. J. H. Ciborowski, L. B. Johnson, T. Hollenhorst and C. Richards 5325

Remote sensing and the EPA Estuarine and Great Lakes Research Program
Barbara Levinson 5343

Remote sensing and GIS applications for estuarine ecosystem analysis: an overview
Xiaojun Yang 5347

NUMBER 24

Cover 5357

Applications of Radarsat-1 synthetic aperture radar imagery to assess hurricane-related flooding of coastal Louisiana
L. M. Kiage, N. D. Walker, S. Balasubramanian, A. Babin and J. Barras 5359

Super-resolution mapping of the waterline from remotely sensed data
G. M. Foody, A. M. Muslim and P. M. Atkinson 5381

Application of three satellite techniques in support of precipitation forecasts of a NWP model
H. Feidas, K. Lagouvardos, V. Kotroni and C. Cartalis 5393

Interannual variations in global SST deviations through SMMR from 1978 to 1987
J. Yu and P. Gloersen 5419

Monitoring boreal forest leaf area index across a Siberian burn chronosequence: a MODIS validation study
X. Chen, L. Vierling, D. Deering and A. Conley 5433

Classification of coniferous tree species and age classes using hyperspectral data and geostatistical methods
H. Buddenbaum, M. Schlerf and J. Hill 5453

Land cover heterogeneity in Great Britain as identified in Land Cover Map 2000
R. A. Hill and G. M. Smith 5467

A digital camera as a tool to measure colour indices and related properties of sandy soils in semi-arid environments
N. Levin, E. Ben-Dor and A. Singer 5475

The recognition of road network from high-resolution satellite remotely sensed data using image morphological characteristics
C. Zhu, W. Shi, M. Pesaresi, L. Liu, X. Chen and B. King 5493

Estimation of average DEM accuracy under linear interpolation considering random error at the nodes of TIN model
Changqing Zhu, Wenzhong Shi, Qingquan Li, Guangxia Wang, T. C. K. Cheung, Erfu Dai and G. Y. K. Shea 5509

Use of remote sensing for drought stress monitoring, yield prediction and varietal evaluation in castor beans (*Ricinus communis* L.)
P. Vijaya Kumar, Y. S. Ramakrishna, D. V. Bhaskara Rao, G. Sridhar, G. Srinivasa Rao and G. G. S. N. Rao 5525

Classifying rangeland vegetation type and coverage from NDVI time series using Fourier Filtered Cycle Similarity
R. Geerken, B. Zaitchik and J. P. Evans 5535

ASTER-derived emissivity and coal-fire related surface temperature anomaly: a case study in Wuda, north China
Prasun K. Gangopadhyay, B. Maathuis and P. Van Dijk 5555

On possible measures for evaluating the degree of uncertainty of fuzzy thematic maps
C. Ricotta 5573

Linear spectral unmixing assisted by probability guided and minimum residual exhaustive search for subpixel classification
Honglei Zhu 5585

Image fluctuation model for damage detection using middle-resolution satellite imagery
M. Kohiyama and F. Yamazaki 5603

Using spectral distances for speedup in hyperspectral image processing
S. A. Robila 5629

A refinement for the Rayleigh radiance computation with variation of the atmospheric pressure
Menghua Wang 5651

Temporal filtering of successive MODIS data in monitoring a locust outbreak
Y. Zha, J. Gao, S. Ni and N. Shen 5665

Index of contents for volume 26 5675
